

Avis Horn Inlay Mirror

Tessellated horn gives this rectangle plenty to say. Pattern meets calm, rectangular simplicity in the Avis mirror, bringing a gallery feel to the wall. A tessellated horn inlay keeps the frame visually busy in the best way, with MDF behind both the inlay and the mirrored glass. Each piece shows natural variation, so the pattern on your wall belongs to that mirror alone. Hang it where a plain wall could use a little craft.

- Pattern With Poise: A rectangular shape stays simple while the tessellated inlay adds movement, giving the wall a focal point that feels lively yet easy to live with.
- Mixed-Media Frame: Horn inlay brings texture and pattern to the frame, paired with mirrored glass that keeps the look crisp and bright in any room.
- Artisan-Made Finish: Crafted by artisans to highlight natural variation in the horn, so each mirror carries markings and character that belong to it alone.
