

Book Accent Table Black

Raw yet refined. The Book accent table is all about the materials, a display of cement and terrazzo combined with a dark and moody color scheme. Its sculpted cement base has a hand-crafted rustic feel, with a silhouette that calls back to antiquity. An optimal plinth for your drinks, trinkets or (naturally) books, the tabletop is made from gorgeously flecked black terrazzo. Perfectly imperfect, the Book accent table will add a bit of tactile flair to any living space.

- Old Meets New: A sculpted concrete base with a silhouette that nods to antiquity pairs with a contemporary terrazzo top for timeless visual contrast.
- Black Terrazzo: A black terrazzo tabletop with natural aggregate flecks creates a richly textured, visually layered surface with organic depth.
- Sculpted Concrete: A concrete base with a sculpted, handcrafted feel adds raw, artisanal character that varies naturally from piece to piece.
- Indoor-Outdoor Ready: Water-resistant materials make this table suitable for living rooms and covered outdoor spaces, with care during inclement weather.
