

Charlene 39"X75" Squiggle Wall Mirror - Biologic Print

SKU: TOV-C18949

The Charlene Wall Mirror brings an artful perspective to everyday reflection, blending function with a distinctly decorative edge. A wooden frame sets the foundation, while printed designs add pattern and personality, creating a layered look that feels thoughtfully collected. Its silhouette draws the eye without overwhelming, making it an easy statement that still feels refined. Hung above a console or styled into a gallery wall, it catches light and subtly brightens the room while introducing texture and visual interest. The result is a piece that feels both expressive and approachable, adding a soft, feminine touch that makes your space feel more considered, more styled, and entirely your own.
