

## Copperworks Accent Table Antique Copper

An accent table's standard look is thrown aside for a more unique look with the Copperworks accent table that presents itself as a dripping candle. Made in solid metal to show off an industrial design, this living room furniture will inspire excitement and intrigue with its statement design.

- **Antique Copper Finish:** A burnt copper treatment over aluminum creates the look of aged, oxidized metal with warm tonal depth and layered color across the surface.
- **Solid Aluminum Body:** Crafted entirely from solid aluminum, delivering dependable structure and real material presence without the excessive weight of heavier raw metals.
- **Industrial Warmth:** An industrial-inspired form softened by the copper's earthy tones brings character and texture to a room without tipping the mood toward cold or stark.
- **Versatile Round Shape:** A clean round profile keeps the design grounded and easy to place in living rooms, dens, and bedside setups without crowding the layout.
