

Cosmo Outdoor Accent Table Black

Modern design meets the raw beauty of nature in the Cosmo outdoor accent table. Its organic, lava-stone-like finish imbues a sense of earthiness rarely found in furniture. Created from a mix of concrete and finely selected small stones under 3mm is both visually interesting and tactile. We recommend covering and storing the table indoors during adverse weather conditions to preserve its unique texture and appearance.

- Concrete & small stone mix creates an organic porous finish - a unique composite that will vary in pattern & texture. No two items made from these materials are alike
- Suitable for indoor or outdoor use
- Store inside or cover while not in use during inclement weather
