

Eden Coffee Table Ivory Lacquer

Shape does the heavy lifting here. A rounded triangular top meets an oval pedestal base, creating a sculptural silhouette that plays with geometry from every angle. The ivory high-gloss lacquer surface reflects light across the room, making surrounding spaces feel brighter and more open. Scratch resistant, stain resistant, and water resistant—so the finish holds up as well as the form. A coffee table that earns its center-stage spot.

- **Sculptural Geometry:** A rounded triangular top paired with an oval pedestal base creates a freeform silhouette that draws the eye without dominating.
- **High-Gloss Lacquer:** An ivory lacquer finish reflects light to brighten surrounding spaces, adding warmth and polished softness to the room.
- **Triple Resistant:** The surface resists scratches, stains, and water, keeping the tabletop looking sharp and composed through years of daily use.
- **Light-Enhancing Presence:** The glossy, light-reflecting surface can make spaces appear brighter and more open, working double duty as a design element.
