

Ella Dining Chair Heather Beige

An oval shape, softened until it nearly disappears into the silhouette. That's the thinking behind the Ella dining chair — curves that read modern and composed whether the chairs match or mix around the table. A 100% polyester seat in heather beige brings warm color with more depth than a flat solid, while foam padding makes long dinners comfortable. A low back keeps sightlines open, and an iron frame with plywood support holds the shape steady. Form first, chair second.

- Quiet Contemporary Lines: An oval shape, softened into a low-back modern silhouette, looks composed whether the chairs match or mix around the table.
- Textured Neutral Upholstery: 100% polyester in heather beige brings a warm, easy-to-style look with a bit more visual depth than a flat solid.
- Iron Frame: An iron frame with added plywood support gives the chair a steady, secure foundation that stays consistent through repeated daily use.
- Cushioned Comfort: Foam padding delivers a comfortable sit that suits everyday meals, work-from-table moments, and all the lingering conversations that follow dessert.
