

Frida Outdoor Coffee Table Cream

Texture takes the lead here. Frida brings the soft depth of Venetian plaster to a coffee-table form with a hand-textured surface that adds movement and character. The bullnose edge and cylindrical base round out the silhouette, while concrete and fiberglass help keep the piece sturdy for everyday use. It works indoors or out, bringing a calm, sculptural note wherever it lands. Easygoing shape, hard-working surface.

- Plaster-Look Depth: The cream finish and hand-textured surface create the soft depth of Venetian plaster, giving the table a calm, sculptural presence.
- Concrete And Fiberglass: Concrete and fiberglass work together to give the table a sturdy build and support its substantial form indoors or outside.
- Rounded Construction: A bullnose edge and cylindrical base soften the profile, giving the table a more sculptural shape with an easy, inviting read.
- Indoor Outdoor Flex: Frida works indoors or out, bringing a coffee-table surface that feels steady, approachable, and ready for everyday use at home.
