This outdoor stool is made of a high-quality concrete and fiber mix, giving it a cool modern look, but keeping it light-weight and strong.

- **Geometric Form:** Angular, faceted planes create a gem-inspired silhouette that catches light and shadow, giving this stool a sculptural edge in any setting.
- **Concrete Composite:** Fiber-reinforced construction delivers the texture and presence of natural concrete in a form that stays lightweight, durable, and easy to move.
- **Weather-Ready Design:** Water-resistant material stands up to outdoor conditions, keeping the stool looking sharp and grounded through sun, rain, and shifting seasons.
