

Harrington Coffee Table Natural

A square that weaves its way into the center of the room. Tempered glass across the top keeps the Harrington coffee table light and open, while a lower shelf of woven natural cane adds warmth and a place to set books or a tray. Solid oak frames it all, sculpted so the wood grain and its natural color lead the look. Three natural materials, one clear-lined shape.

- Airy by Design: An open square shape with a glass top and low shelf keeps the table light to look at while still anchoring a seating area.
- Oak, Glass, and Cane: Solid oak, tempered glass, and natural woven cane bring three textures together for a modern rustic look that stays warm.
- All in the Shaping: The oak frame is sculpted, giving the square a softer line and steady support for both the glass top and the cane shelf.
- Room for More: The woven cane shelf adds a second surface for books or a tray, and the clear glass top keeps everything in view.
