

Landon Coffee Table Beige Travertine

The Landon coffee table encapsulates design and proportion, crafted with a generous 30mm-thick Turkish travertine tabletop and a mango wood base stained in a rich, dark hue. The rounded tabletop edge gives the travertine a soft feeling, while the darkly stained mango wood base adds warmth to the hardened material. Note that no two tables are alike, showcasing their own color and veining variation.

- Honed & filled Turkish travertine with mango wood legs & MDF for travertine pasting
- Constructed from mango wood sustainably sourced from trees that no longer produce fruit
- Product is made with kiln dried wood. Solid woods react dynamically to their environment & may swell & crack with changes in humidity & temperature, the kiln-drying process prevents the wood from warping or developing small cracks over time, resulting in highly durable furniture. Kiln-dried wood doesnâ€™t require harsh chemical treatments as the heat effectively sanitizes it
- Basic butt wood joinery
