

Lucy Mushroom Stool - Mud Brown

SKU: TOV-OC19036

Playful yet polished, the Lucy Accent Stool brings an artful softness to your space with its sculptural mushroom-inspired silhouette and tactile mix of natural materials. Upholstered in printed cotton duck canvas, each piece introduces a layer of pattern and personality that feels collected and fashion-forward without overwhelming the room. The rounded, padded form creates an inviting perch for extra seating, a cozy footrest beside your favorite chair, or a styled accent tucked beneath a console or vanity. Crafted from solid kiln-dried mango wood, Lucy balances its whimsical curves with sturdy construction and organic warmth. Plush foam cushioning adds everyday comfort, while the compact scale makes it easy to move wherever the moment calls for it. Equal parts functional and decorative, Lucy delivers a curated, design-led look with an effortless sense of charm.
