

Manon Outdoor Coffee Table Deep Green

Soft edges, strong presence. The Manon outdoor coffee table reworks a classic pedestal silhouette with generously rounded lines and a seamless connection between top and base. In Deep Green, it lands with a grounded, earthy mood. Concrete blended with fiberglass gives the piece outdoor-ready durability while keeping the form refined and approachable. The result is a striking focal point that feels calm, current, and easy to live with.

- Grounded Color Story: Deep Green pairs with the rounded pedestal silhouette for a calm, sculptural look that gives this outdoor table a strong, design-forward point of view.
- Concrete Composite: Concrete with fiberglass construction brings dependable durability for outdoor use, giving the table a sturdy feel while keeping its rounded form visually light.
- Seamless Curves: The overly rounded edge creates a smooth connection between the top and base, reworking a familiar pedestal shape with a more considered finish.
- Room To Gather: A broad top gives drinks, books, and outdoor essentials a comfortable landing spot, while the gently raised rim keeps the profile neat.
