

Martens Dining Chair Black Leather

The Martens chair does that rare thing: it looks light, but sits seriously comfortable. An open barrel back keeps the silhouette airy, while the frame flows in one continuous curve from leg to seat for a clean, uninterrupted line. Black top-grain leather and generous padding bring the comfort factor, and armrests add just enough structure to feel pulled-together at the table. It’s the kind of chair that makes dinner run long.

- Airy Barrel Back: Open, sculpted back and a continuous curved profile create a clean look that feels light in the room, not heavy.
- Leather Upholstery: 100% top-grain leather in black brings a smooth finish that wears well, paired with foam padding for comfort you’ll notice.
- Iron Frame Structure: Iron frame and plywood seat support keep the form steady, while maintaining the chair’s fluid line from leg to frame.
- Arms, Not Extras: Integrated armrests add support and a more formal posture at the table—great for lingering courses and long conversations.
