

Mason Outdoor Dining Table Dark Brown

One tapered pedestal, one broad oval top, all in concrete. The smooth base carries the surface with an elemental, architectural presence that anchors an outdoor dining space. Wide enough to feel solid yet tapered to stay clean and sculptural, it lets the oval top soften the weight of the concrete with an organic, flowing line. Solid as stone, soft in the silhouette — made for long outdoor dinners.

- Weather-Ready Concrete: Water-resistant concrete stands up to sun, rain, and outdoor use, making the oval dining table a durable anchor for patios, decks, and gardens.
- Tapered Pedestal: A smooth tapered pedestal grounds the oval top, wide enough to feel solid yet clean enough to keep the form sculptural rather than heavy.
- Oval Silhouette: The broad oval top brings an organic, flowing line that softens the weight of the concrete, seating a full table with an easy, considered shape.
- Elemental Presence: A solid, monolithic form gives the table a strong architectural stance outdoors, grounding a dining space with quiet, sculptural confidence.
