

Miri Large Shelf Oak

Five levels of open display with nothing to hide. Miri frames books, objects, and decor through an open geometric structure with mid-century modern roots—working just as well as a freestanding room divider as it does against a wall. White oak veneer over MDF brings warm, natural grain to every level, with a PU lacquer finish for everyday protection. Each piece shows unique character in the wood's tone and pattern. Slide two units together for a seamless five-level arrangement.

- Open Mid-Century Lines: A geometric open-shelf design with clean mid-century modern lines serves as a display unit, a room divider, or both—wherever the layout calls.
- White Oak Character: Natural white oak tones with inherent grain variation bring organic warmth and visual character that differs uniquely from piece to piece.
- Lacquer Protection: A PU lacquer coating seals and protects the surface, adding a layer of everyday durability to the natural oak wood finish underneath.
- Expandable Layout: Two units slide together to create a seamless arrangement with five levels of open display for books, objects, and collected pieces.
