

Miri Shelf Small Black

A room divider that happens to hold your favorite things. Miri frames everything on display through clean, geometric lines rooted in mid-century modern design—equally at home against a wall or standing freely in an open-concept layout. Black ash veneer over MDF brings natural grain to its open shelves, and the unit stands vertically or lies horizontally to suit your space. Each piece shows unique character in the wood's tone and pattern, so no two ever look quite alike.

- Open Mid-Century Framework: Clean geometric lines and an open-shelf design create a compact, versatile piece that doubles as a freestanding room divider in open-concept spaces.
- Black Ash Grain: Black ash veneer gives every surface a clean, even grain, with subtle natural variation that means no two shelves look exactly alike.
- Stands or Lies: Position the unit vertically to save floor space or horizontally for a longer display, adapting to whatever the room and wall allow.
- Expandable Layout: Two units slide together to create a larger, seamless arrangement with three levels of open display for books, objects, and collected pieces.
