Myron Coffee Table Brown

Sheesham goes dark, and the grain gets dramatic. Solid wood gives the Myron coffee table a grounded presence, while the dark brown finish keeps its contemporary shape feeling rich and relaxed. The tabletop gathers drinks, books, and everything that makes a seating area feel lived in. Natural grain brings movement across the surface, giving each table its own low-key character. Great design, gathered right where everyone can reach it.

- Contemporary Center: A clean contemporary profile gives the seating area a grounded focal point, with a dark brown finish for quiet visual depth.
- Solid Sheesham: Solid Sheesham wood brings natural grain, warm brown tone, and lasting material presence to the center of the room.
- Grain In Motion: The wood's natural variation adds movement across the surface, giving each coffee table its own quietly expressive character.
- Gather Round: Designed for daily use, the tabletop keeps drinks, books, and living room essentials close without crowding the conversation.
