

Nicola Media Cabinet Black

A blend of modern and vintage with its contemporary silhouette, the Nicola media cabinet features curved doors that smooth the bold textures of reclaimed wood. Its striking form stands on a recessed base, offering a stark contrast that beautifully complements transitional settings. The minimalist handle detail emphasizes the piece's elegant curves, while ample storage simplifies the organization of media essentials inside.

- Low and Grounded: A low, freeform silhouette on a recessed base anchors the media wall while letting the screen stay the focal point.
- Reclaimed Pine Warmth: Reclaimed pine brings warm, characterful grain to the curved fronts, so the cabinet carries texture and natural variation no two units share.
- All in the Detail: Curved doors smooth the bold texture of reclaimed wood, and a minimalist handle traces the line so the front stays clean and uninterrupted.
- Hide the Clutter: Behind the doors, ample enclosed storage keeps media gear and accessories organized and out of view, leaving the room calm and composed.
- FSC-Certified Wood: The reclaimed pine frame is FSC-certified, so the wood traces back to responsibly managed forests—character you can feel good about.
