Nicola Sideboard Black

Rustic charm and contemporary design come together through reclaimed pine in the Nicola sideboard. Featuring curved doors that soften its texture, its contemporary recessed base contrasts with the rustic wood, offering a modern silhouette ideal for transitional spaces. The simple handle detail accentuates the curved design, with generous storage inside for essentials. At a comfortable 35" height, it's designed for both functionality and style, fitting seamlessly into the dining area.

- Curves With Contrast: Curved doors and a recessed base give the sideboard a softer front and a lighter stance that suits modern and transitional rooms alike.
- Reclaimed Pine Character: Reclaimed pine brings warmth and one-of-a-kind grain to every panel, so each piece carries a slightly different texture and natural variation.
- All in the Detail: A simple handle detail follows the line of each curved door, keeping the front clean and letting the silhouette do the talking.
- Room for Essentials: Behind the doors, generous enclosed storage keeps everyday essentials organized and out of sight, with easy access whenever you reach for them.
- FSC-Certified Wood: The reclaimed pine frame is FSC-certified, so the wood is traced to responsibly managed forests—character you can feel good about.

Item Code	FR-1044-02
