

Keeley Table Lamp White

When contrasting shapes lighten up. Keeley plays with opposites—a warm, rounded base sets a soft foundation, while the angled black shade adds a sculptural edge. The matte powder-coated finish keeps the look modern, and a crisp cotton shade diffuses the light just right. It's the kind of piece that turns a nightstand into a design moment. Clean lines, soft curves, and the kind of contrast that catches your eye.

- Warm Beige Base: The lamp's base is crafted from powder-coated metal in a warm beige hue, providing a soft, inviting foundation for the overall design.
- Angled Black Shade: In stark contrast to the warm beige base, an angled black shade adds a bold, graphic element. Made from cotton, it softens the light with its texture, adding a subtle tactile element.
