

Arlon Table Lamp Dark Brown

A faceted base with the quiet presence of a sculpted vessel. Angled planes give the Arlon table lamp a grounded, sculptural base that reads as a considered object in its own right, catching the light in subtle, shifting ways that add depth and interest. A fine linen shade softens the glow above, balancing the dark, faceted wood below. The kind of lamp that earns a second look, lit or not.

- **Sculptural Faceted Base:** A dark, faceted wood base brings a grounded, vessel-like presence that reads as a considered object on a console or side table.
- **Light And Shadow:** Angled planes across the base catch the light in subtle, shifting ways, adding quiet depth and interest to the surface.
- **Soft Linen Glow:** A fine linen shade balances the dark base and diffuses light into a soft, warm glow for a bedside or entryway.
