Rivet Outdoor Dining Table Dark Brown

A fluted concrete pedestal, ribbed for the great outdoors. A broad, smooth round top sits on a generously proportioned fluted pedestal, giving the Rivet table a sculptural, architectural presence on the patio. Vertical ribbing runs the full pedestal for a strong sense of rhythm and craftsmanship, while flares at the top and foot keep it stable, grounded, and considered. Dinner outdoors, anchored by a base with quiet rhythm.

- Weather-Ready Concrete: Water-resistant concrete stands up to sun, rain, and outdoor use, making the round dining table a durable centerpiece for patios and decks.
- Sculptural Round Top: A broad, smooth round top creates a clear focal point outdoors, offering a generous surface for alfresco dinners, drinks, and easy gathering.
- Fluted Ribbed Pedestal: A generously proportioned pedestal is fluted with vertical ribbing all the way around, adding rhythm and craftsmanship that turns the base into a statement.
- Grounded Stance: Flares at the top and foot give the pedestal a stable, grounded footing, balancing graceful proportions with the solidity to seat a full table.
