

Bent Dining Table Large Brown

Thick-top energy, no fuss. Bent turns solid acacia into a statement surface—grain, knots, and color shifts left proudly visible under a natural, water-based finish. That extra-thick profile casts a bold shadow line, giving the table a sculptural edge without stealing the room. A cast-iron base keeps the look clean and steady, with rust- and corrosion-resistant strength for everyday use. Seats eight comfortably, ready for shared plates and big plans from weeknight pasta to weekend projects.

- Substantial Surface: A 2.20-inch thick tabletop introduces striking visual weight and dimension, creating a bold shadow line that anchors the design and enhances the table's sculptural presence.
- Solid Acacia Character: Solid acacia with a natural, water-based finish highlights grain, knots, and color shifts, so every surface feels one of a kind.
- Cast-Iron Stability: Rust- and corrosion-resistant cast iron supports the substantial top with a steady stance, reinforcing the table's structural lines for daily use.
- Made To Host: Seats eight comfortably with room for shared plates, family-style serving, and laptops, turning dining time into an easy gathering zone.
