

Ella Accent Chair Heather Beige

An accent chair with a soft spot for geometry. Ella starts with the oval—then quietly edits it into a contemporary silhouette that feels fresh, not obvious. The heather beige upholstery brings calm, layered color, while a slim iron frame keeps the profile light and intentional. Inside, foam over a plywood structure delivers supportive comfort for everyday perching. A study in form, finished like furniture you actually live with.

- Quiet Contemporary Lines: Oval-inspired curves are softened and refined into a modern accent silhouette that adds structure to a space without stealing the spotlight.
- Textured Neutral Upholstery: 100% polyester in heather beige brings warmth and easy styling, with subtle depth that plays nicely with color, wood, and metal.
- Reinforced Structure: An iron frame with plywood support creates a steady, well-made foundation, while the fixed back keeps the sit feeling consistent.
- Everyday Lounge Comfort: Foam cushioning delivers a comfortable place to land—perfect for reading, regrouping, or extra seating when the conversation runs long.
