Daphne Dining Table Large Black

Big dinners deserve a little drama—meet Daphne. Designed to feel grounded and inviting, this table balances a substantial top with sculptural double pedestal legs that keep the room feeling open. The black finish sharpens the silhouette while letting the carved leg details do the talking. Acacia wood brings rich grain and everyday durability, reinforced with iron where support counts. From weekday pasta to holiday spreads, Daphne holds court without stealing your flow night after night.

- **Sculptural Double Pedestals:** Two pedestal legs create an architectural stance and leave more visual breathing room around chairs and circulation paths at the table.
- **Black Acacia Top:** Solid acacia wood in a black finish highlights natural grain while offering a hard-wearing surface for daily dining and easy styling.
- **Carved Leg Detail:** Carved shaping adds depth to the bases, with iron reinforcement integrated for steadiness and long-term performance under heavier serving pieces.
- **Seats With Ease:** Comfortably seats eight people, with a generous surface that welcomes shared platters, place settings, and centerpieces without feeling crowded.
