Sierra Sideboard Natural

The Sierra sideboard is a stunning testament to the beauty of reclaimed pine and the art of sustainable design. Showcasing the natural wood grain and distinctive knot patterns inherent to the material, this sideboard offers functional storage with six generously-sized shelves. Elevated by a solid metal base, this piece embraces a transitional design that seamlessly unites the warmth of rustic aesthetics with the clean lines of contemporary style.

- Natural Rustic Profile: The natural rectangular profile gives this sideboard a grounded rustic mood, balancing wood character with a crisp metal base underneath.
- Pine Wood Mix: Pine framing and reclaimed pine front boards bring natural variation to the piece, keeping the surface warm, textured, and visually layered.
- Stainless Steel Base: A stainless steel base adds a clean-lined foundation, giving the wood case a measured contrast from floor to cabinet level.
- Six-Shelf Cabinet: Three locking doors with magnetic catches open to six interior shelves, giving dinnerware, linens, and extras more places to settle.
