

Trine Nightstand White Marble

The Trine nightstand builds a story around elemental bursts of marble and iron. Three tiers of white marble are joined together by a sturdy semi-gloss iron frame to create something that is as functional as it is elegant. This versatile nightstand keeps things neat and organized in the bedroom but would look great in any room setting.

- Tiered and Open: Three open marble shelves stack into a clean-lined silhouette that keeps bedside storage visible, accessible, and easy to keep tidy.
- Marble Meets Iron: White marble tiers pair with a semi-gloss black iron frame, balancing natural stone character against a strong, grounded metal structure.
- Made to Hold Up: A reinforcing layer beneath each marble surface helps prevent cracking, so the shelves stand up to everyday bedside use year after year.
- One of a Kind: Natural variances in the marble mean tone and vein markings shift from piece to piece, so every nightstand arrives unique.
