

Walter Coffee Table Deep Bronze

Sculpted, not squared. All curve, no compromise. All curve, no compromise. Walter doesn't play by the rules—and that's the point. Its cast iron aluminum nods to a capsule shape, but the subtly uneven edge tells a different story: gentle curves that give it organic character. The sculptural pedestal base mirrors that same softened geometry. It works just as well indoors or out—the shape may be imperfect, but the balance? Just right.

- Playfully Oversized: A playful, oversized capsule-shaped top and organic form flow with highs and lows along the side to create an asymmetrical silhouette.
- Refined Juxtaposition: The contrast between the table's playful, rounded curves and the sophisticated, cast iron material creates a stunning focal point that effortlessly elevates and matures any room.
